

Cable Management

Cable Trays (for vertical cabling)

Cannon steel cable tray provides an attractive and very durable product for excellent and simple cable management.

The cable tray fits vertically to the depth channels in the cabinet in order to provide a neat support for cabling.

Fixing slots are located at the 'U' heights and offer a modular design commensurate with any Cannon cabinet or rack. No additional drilling is required.

Finish: Standard: Powder painted Velvet Black to RAL 9005 or Chameleon (Grey White) to RAL 9002. Other colours available on request.

Supplied with fixings for secure attachment to the cabinet framework.
