

AISLE CAGE

- Totally secure any individual Aisle (Hot or Cold) against unauthorised entry, with high security mesh doors at aisle ends and overhead mesh panels to allow through flow of air.
- Avoid the wasteful, space consuming negatives of old fashioned security cages.
- Preserve maximum floor space for valuable data processing capacity.
- Maximise density and return on capital employed
- Add "Cannon Guard" for positive, controlled security and access control
- Combine electronic key pad entry with biometrics, interactive video surveillance and remote control
- Maintain a full audit trail of all access activity.
- Maintain high efficiency cooling and avoid the cooling inefficiencies interposed by out-dated cages.
- Combine cold aisle cocooning containment with "Aisle Cage" mesh cocooning for the hot aisle, to achieve high efficiency cooling and all round security.
- Aisle Cage can add 30%- 50% more capacity to your data hall when compared to outmoded security cages.
- Security can actually be enhanced with Cannon Aisle Cage and CannonGuard Access Control.
