

SLIDING DOUBLE DOORS

Double Sliding Doors provide an exceptional solution for standard 1800mm and extra wide aisles i.e. when an infill panel combined with a single sliding door is not acceptable.

Double Sliding Doors operate with the same range of virtues as Single Sliding Doors.

Cannon Double Sliding Doors can be opened singularly with only one hand for quick personal access. Both doors can be opened wide to allow carts etc. to pass through. They automatically close with the same smooth two speed action as the single doors and can be upgraded to electronic locking if required.

47U 1800mm AISLE DOUBLE DOOR – 1200 CAB
